**ITEM 1**

You are employed as an ICT assistant during your vacation at ABE primary school. At the end of term II, the school administration provides academic performance data for primary seven (P.7) pupils in Mathematics, English, Science and Social studies. The administration requires an analysis within three days to support decision making and improve performance.

Zube, the Head of ICT is away, so you are responsible for the task.

The school wants to know learners' performance, identify strong and weak pupils, compare overall results, and present the information using clear visual displays.
Specially, the administration requires;

- The number of pupils per subject who qualify for a reward (Score above 74)
- The total amount per subject if each qualifying learner is awarded 12,500 and the overall total expenditure.

You are also required to prepare a brief report including findings, interpretation, recommendations, a financial summary, and a conclusion.

The data is provided in the support file: Subject score

**Task:**

Prepare all the required documents with in the given time.

**ITEM 2**

Kitibo, a local Entrepreneur, owns a fast growing electronics shop in a rural area of Uganda. He sells a variety of products including laptops, smartphones, televisions and other electronic accessories. Recently he faced challenges regarding competition and the fact that his business is only known by a few people in the centre.

He was advised that an online platform would help him reach out to more customers by show casing his products, prices, special offers and key business information such as location and contact details. It would also allow him receive instant feedback and orders from customers.

His friend later referred him to you as a technical person.

To support your work, you have been provided with a folder named "ELECTONICS"

**Task:**

Design a website that will help Kitibo improve and maintain his business.

**END**
