GEOGRAPHY

Paper 1

2 hours 45 minutes

INSTRUCTIONS TO CANDIDATES:

This paper consists of **two** *sections;* **A** *and* **B**. *It has* **six** *examination items.*

Section **A** *has* **two** *compulsory items.*

Section **B** *has* **two** *parts;* **I** *and* **II**. *Answer* **one** *item from each part.*

Answer **four** *examination items in* **all**.

You may use diagrams where applicable to illustrate your answers.

Any additional item(s) answered will **not** *be scored.*

All *answers* **must** *be written in the answer booklet(s) provided.*

SECTION A: MAP AND PHOTOGRAPH SKILLS

Answer **all** *items in this section.*

ITEM 1

For this item use the East Africa 1:50000(UGANDA) NAKASONGOLA map extract sheet 50/2 series Y732 Edition 1-USD to respond to the tasks.

Heavenly dove high school is planning a trip to Nakasongola District to study how people use land and how the environment affects their way of life. Before the trip their geography teacher Mr. Edwards gave a map extract to one of the students and asked Eve to study it because she was going to do a pilot study of the area. She has to get a place where they will rest from.

Task

a) Determine the;

i) The location of Lukiko post camp south of Nakayenje where they are likely to rest from (1mk).

ii) Name a manmade feature located at grid reference 414448(1mk).

b) Draw a sketch map of the area shown in the map extract and on it mark and name drainage, manmade features and physical features of the area(8mks)

c) Guide the school on the challenges that are likely to be faced during their stay in Nakasongola (5mks)

ii) Give the ways on which the above challenges can be mitigated (5mks)

ITEM 2

PHOTOGRAPHIC SKILLS

Residents in the area below have received information that the government plans to give much of their land to an investor who wants to establish an irrigation scheme and related facilities. The government claims this will develop the area and the country. Howevermany of the people feel uneasy and oppose the investors plan. They fear the government may seize their land and believe their area isn't suitable for irrigationfarming. These reactions have made the investor nervous as he is unfamiliar with this part of Uganda and government doesn't know of how to go about this.

Task

A) Draw a landscape sketch of the photograph and on it mark and name the features found in the area shown in the photograph.

b) Using evidence from the photograph and supporting materials, prepare a detailed message to the investor showing him the problems he is likely to face and how to solve them.

C) Explain to the residents the opportunities their area is going to gain in case they decide to agree with the government

SECTION B

Answer one item from this part

ITEM 3.

Study the text and fig 3 provided and use them to answer this task.

In parts of Africa, people are argued to carryout fishing around the different waterbodies. Researchers have explained that fishing has improved the living standards of people through being a source of income, employment opportunities as well as other importances. However some people living around waterbodies have refusedto believe in this research. They argue that the improved standards of living of people happen to originate from the creativity of people as well as their love for working hard in their sectors. Consequently this view has led to under development of this fishing sector in this region.

Support Material.

You have been selected as a key speaker for a sensitization rally organised by the government to help people understand how fishing will influence their standards of living and importance of developing that sector.

Task

a) Describe the factors that might promote fishing in the area using the support material given above.
b) Explain how fishing will influence the peoples standards of living in the area shown in the support material above.
c) Explain the challenges that are likely to be faced by the fishing sector in that area and how they can be solved.

ITEM 4.

Katonga River in May 2023 flooded over the area around and it affected many people's lives and their property. The ministry of disaster preparedness and refugees in Uganda decided to prepare a place to act as a home for these people who lived around river Katonga until the water dries up.

Support Material

Task

Using the above support material explain the causes of floods and their effects as well as the possible solutions to the problems.

ITEM 5.

A local government in Mukono district wants to understand the population growth of 3 towns Namataba, Kisoga,Seeta. A student collected the following estimated population figures from the Uganda bureau of statistics.

Town	Population 2015(000)	Population 2020(000)
Namataba	12	156
Kisoga	8	102
Seeta	20	25

a) Suggest the most appropriate statistical diagram to compare the population changes in the 3 towns between 2015 and 2020. Explain your choice.
b) Using the data provided draw a suitable diagram to represent the above information.
c) The town of Seeta has the highest population in both 2015(20000) and 2020(25000) compared to Namataba and Kisoga. While this growth is a sign of development it can also bring challenges to the town's management and planning. Explain at least 4 challenges that are likely to be faced and suggest solutions to them.

ITEM 6

Karibu region is located in the highland interior of Kenya. The region is rich in in agricultural activities especially tea, and diry farming. However, many roads are seasonal and become impassable during rainy seasons. Transporting goods to market becomes difficult leading to heavy post harvest losses and high transport costs.

Support material

You are part of geography research team tasked with helping improve transport and communication in karibu region.

Task

a) Explain how the agricultural activities in Karibu region have led to the development of the area.
b) Analyse the challenges that are being faced in the region and give ways how they can combat the challenges.
